VAL D'ARAN - SPAIN

'An authentic and a varied type of skiing. For ski and gastronomy lovers.'

Val d'Aran is a region located at the north-west tip of Catalonia, which remained very much isolated in winter until the construction of the Vielha tunnel in 1948.

This stunning area dotted with mountains and valleys has managed to preserve over the centuries a strong identity, such as in its language, architecture and gastronomy.

The particular position of Val d'Aran and an average high elevation provide an excellent amount of snowfall for our great delight.

Barcelona is the capital of the Catalonia province, a fascinating city which needs no introduction. It hosts treasures of architecture and gastronomy, to the delight of culture and good food lovers during our evening exploration.
